TO SEWER CITY**

CITY MANAGER SUGGESTS ALL  
PROJECTS BE REJECTED BY  
CITY EXCEPTING ONE

**FOR MASS MEETING**

PERMIT CITIZENS TO DECIDE  
WHETHER TRUSTEES SHOULD  
CALL BOND ELECTION

In a complete report made to the board of city trustees on Olmsted & Gillette's contract with Glendale for services as sanitary engineers in connection with planning sewage disposal works for the city and entering into a new contract on such terms as may be mutually agreed upon, T. W. Watson, city manager, suggests a basis upon which a new contract may be made with the engineers.

The city manager proposes that all plans for sewage disposal be rejected excepting what is known as plan No. 3. This plan, in general, contemplates the collection of sewage by means of several interceptors and raising it by means of pumps and pressure mains to Scholl canyon where it would pass through sand filters and then be used for irrigation. The total bond issue would be about \$400,000.

For Advisory Committee  
In his report, the city manager proposes that, after the rejection of the other plans, the city take plan No. 3 under consideration, that Olmsted & Gillette submit all facts and figures pertaining to the plan to an advisory committee to consist of twelve citizens of Glendale appointed by the board of trustees and that this committee report to the board with recommendations.

If the recommendations be favorable it is proposed by the city manager that the board call a mass meeting, submit the plan and if the action of

**PLAN ADDITION**

EXPANSION SEEN RESULT OF  
PERMIT TAKEN OUT TO  
CONSTRUCT ROOMS

What may expand into a great building project was started yesterday with the taking out of a permit yesterday by Betz, Daniels & Borthick for the erection of a two-room addition to the rear of the brick building occupied by the Bentley-Schoeneman company's uptown office and the Jewel Electric company. As the firm above named has leased the ground formerly occupied by the lumber company, it is likely they will erect a number of business buildings on it.

**HELD TO ANSWER**

EMIL SPITZER BOUND OVER TO  
SUPERIOR COURT; WIFE NO. 1  
AND NO. 2 ARE FRIENDS

Preliminary hearing of Emil Spitzer, formerly employed in the local branch of the Kohler & Chase Piano company, accused by his wife, Mrs. Edith Spitzer, with bigamy, was concluded before Justice of the Peace H. M. Miller this morning and Spitzer held to answer to the superior court.

Mrs. Spitzer No. 1 and Mrs. Spitzer No. 2, the latter formerly being Marjorie Sims of Taft and who was married to Spitzer by Justice Miller as the first bride of the new year, have become friends and, it is said, are united to prosecute their joint "husband." They communicated with each other yesterday, it is stated, and this morning came to court together.

In the superior court yesterday Judge Walton J. Wood issued an order at the request of Mrs. Spitzer No. 1, to Spitzer instructing him not to dispose of 1000 shares of oil stock said to be valued at about \$4000 until after the adjustment of the divorce suit.

Spitzer is also accused of issuing a check without sufficient funds, the charge being made by J. E. Walker of the Walker Jewelry company of this city. Following his preliminary hearing before Justice Miller this morning, the accused was taken before City Recorder Lowe to be arraigned on the check charge.

**AGAIN DISCUSS  
ROAD BUILDING**

ROUTE FROM LOS ANGELES TO  
GRIFFITH PARK TO ASSIST  
SAN FERNANDO TRAFFIC

**CONSIDERING PLANS**

BRIDGE WOULD HAVE TO BE  
CONSTRUCTED OVER RIVER;  
MAYOR URGING PROJECT

Interest has been aroused again in the project to relieve the travel congestion on the San Fernando road by constructing a highway from North Broadway, Los Angeles, west and northwest, to Griffith park and then on through the park to connect with Burbank and also the state highway. It is claimed that Mayor Snyder of Los Angeles is now urging the plan. This is of interest to Glendale people from the fact that it would divert a part of the traffic that now passes through this city on the San Fernando Road which is very heavy both in the way of freight and passengers.

Two units of this proposed new highway would have to be constructed entirely new. One would be the proposed road cut out of the hillside along the north side of Elysian park and this would connect with the present paved road that skirts the Pacific Electric right of way, but far below it, as far as Ivanhoe. From that point on there is a good dirt road, which of course would be hard surfaced, either with macadam or concrete.

New Road Is Necessary  
An entire new road through Griffith park will be necessary as the present one is needed for pleasure vehicles and besides it is too winding for trucks. The new road would be constructed along the river bank at a much lower level than the present highway.

There would be only one grade crossing in this section of highway extending from North Broadway and Elysian park to Burbank and that would be between Griffith park and the latter city. The Los Angeles river would have to be bridged once and that at the north end of Griffith park.

INTERMEDIATE SCHOOL NEEDS  
LUNCH ROOM, IS DECISION  
MADE BY P.-T. A.

Interest and enthusiasm marked the well-attended P.-T.A. meeting over which Mrs. H. V. Brown presided in the auditorium of the intermediate school yesterday afternoon. The chief topic of the afternoon was a cafeteria for the intermediate school. The matter was discussed with keen interest by mothers and teachers.

Mrs. Thatcher, of San Jose, who has recently come to reside in Glendale, was introduced. For fifteen years her employment and that of her husband has been along the line of cafeteria work, and she wishes to be of service in making this one a success.

Superintendent Richardson D. White made plain the need of the cafeteria, which will be of benefit not only in furnishing the children with a proper noon lunch, but also in doing away with the habit some of those who cannot go home to lunch are acquiring, namely, going up town to lunch. It is against the school law for these children to leave the grounds at noon, Mr. White said, and it is a good law, for the children have no judgment in choosing proper foods at a restaurant, to say nothing of other dangers to which they may be subjected while away from the care of either parent or teacher.

Mrs. Brown reported a meeting of the executive board of the P.-T. A. (Continued on Page 3)

GLENDALE THEATRE TO GIVE  
ITS GROSS PROCEEDS TO  
APPLY ON DEFICIT

**COMMITTEE ACCEPTS**

OFFER OF MANAGER HOWE IS  
TAKEN; SPECIAL SHOW TO  
BE ON JANUARY 20

Hardly had Glendale's Tournament of Roses float committee made its statement through the columns of The Evening News for every loyal Glendale citizen to do his bit toward clearing away the \$450 deficit in the float fund, when William A. Howe, lessee and manager of Glendale Theatre, came forward with an offer of a "bit" which, with proper co-operation, will clear off \$300 of the indebtedness on the float.

The offer was explained to the members of the float committee by Chairman R. F. Kitterman at a meeting held in the city hall last night with the result it was quickly accepted and thanks extended to Mr. Howe.

In brief, Mr. Howe proposed to give the entire gross proceeds of the matinee of Thursday, January 20, to the float committee. No charge is made for the theater; he does not ask for a percentage; he will give the entire "take in" to the float committee, including the money paid for tickets sold at the box office as well as those sold on the outside.

**Public Aid in Sale**

Merchants, organizations and private citizens will, no doubt, be glad to sell the tickets. They are now being printed and will sell for 28 cents each. There will be but one price for matinee tickets on this occasion. Details for plans for selling tickets are being worked out and will be given later in these columns. Three cents of the twenty-eight is the war tax, so that twenty-five cents of every ticket sale goes to the float committee. If there is a full house, the amount turned over to the committee will be \$300.

**Musical Program Arranged**

There will be no difficulty in selling the tickets. The marvelous new organ of the Glendale Theatre will be dedicated on the evening of January 18. This float benefit program comes two days later, on the after-

ta Ana, are now living at 640 Mil-  
ford. Errol has recently bought the

At least one member of the new  
Chamber of Commerce, as it is being  
reorganized and expanded, is as-  
sured. This membership was volunteered  
yesterday by Captain William A. Lov-  
ing, retired, of North Glendale, who  
was so impressed with the expan-  
sion plans as outlined by the Citiz-  
ens' committee that he asked Com-  
mitteeman C. E. Neale to put him  
down for a \$25 membership.

Mrs. Priscilla Houdyshel, 308

council meeting of department offi-  
cers of the Woman's Relief corps at  
the home of the president, Mrs. Ella  
M. French, in Los Angeles yesterday.  
The topic of the day was plans for  
the distribution of a fund for the  
relief of war veterans and their fami-  
lies, particularly those veterans who  
are ill and disabled and those of  
their families who are in need as a  
result of such illness and disability.

Mrs. Jesse Joseph, 201 West Lex-  
ington Drive, has received word from  
her son, Charles Conrad, who has  
been in the navy for twelve years, that  
as a reward of merit he has been as-  
signed to three years' land service as  
inspector at Cedar Rapids, Iowa. He  
also states that a new ruling has  
been passed that the married men  
shall be assigned to recruiting ser-  
vice. It is possible that he may either  
be transferred to sea or to one of  
the west coast naval training sta-  
tions.

Mrs. Gertrude Griffin, 205 West  
Acacia, was to go out of two offices  
in the Mary Jane Gillette Tent.  
Daughters of Veterans, tonight, and  
be installed in yet another. It  
sounds as if Mrs. Griffin were a dual  
personality, at least. Although she  
is unable to appear at the installa-  
tion tonight, she must wish she real-  
ly were two people. For her hus-  
band, Joseph V. Griffin, has been ill  
for several weeks with bronchitis,  
and now all three of the youngsters,  
Jim, Dick and Dan (aged respective-  
ly six, four and two years), have the  
whooping cough.

## JACK FROST HERE

ARRIVES IN SOUTHLAND BUT  
DOES NO DAMAGE TO ANY  
FRUIT, IS CLAIMED

Frost early this morning covered  
roofs and ground in Glendale—and  
well as other sections in southern  
California. The weather forecast for  
tonight and tomorrow is:

"Tonight and Wednesday fair.  
Heavy to killing frost in the early  
morning."

A dispatch to The Evening News  
from Riverside states that fruit  
growers believed the Riverside dis-  
trict escaped damage from the frost.  
H. A. Lynn, of the Arlington Heights  
Fruit Exchange, today asserted that  
so far he had found no ice in the  
oranges.

The temperature late last night  
and early this morning hovered close  
to the freezing point in the citrus  
districts and a large force of motor-  
growers to be ready to battle with  
the frost.

Smudging began early in the eve-  
ning in some sections, especially in  
exposed places. It is claimed that  
the sugar has formed sufficiently in  
the fruit so that low temperatures  
may be stood better than earlier in  
the season. Also, the uniform low  
temperature of the past few weeks  
has helped to harden the trees.

**WOMAN LICENSED, PREACHER**  
RIVERSIDE, Jan. 11—Mrs. Stella  
B. Irving, one of the national lead-  
ers of the W. C. T. U., formerly pre-  
sident of the state organization, has  
been granted a local preacher's li-  
cense by the Methodist church.

**DIRECT TAX NOT FAVORED**  
SACRAMENTO, Jan. 11—State leg-  
islators today stated that the legisla-  
ture will not levy an ad valorem tax  
to meet the increased cost of state  
government.

One of the valuable lessons which  
a lot of persons are learning is bet-  
ter appreciation of the pay envelope.

## PLAN CAFETERIA

INTERMEDIATE SCHOOL NEEDS  
LUNCH ROOM, IS DECISION  
MADE BY P.-T. A.

(Continued from Page 1)  
during the past week. At this meet-  
ing plans were made for a luncheon  
to be served the school children at  
noon next Friday, in the new lunch  
room in the addition to the building.  
Every eighth grade pupil and every  
mother of an eighth grade pupil is  
expected to contribute to the menu,  
which consists of hot beans and rolls,  
milk, ice-cream and cake, and home-  
made candy.

The proceeds of this luncheon,  
which will be served by mothers of  
eighth grade pupils, will be donated  
to the cafeteria fund.

The committee in charge of next  
Friday's luncheon includes Mes-  
dames Barton, Crawford, Oliver,  
Plasterer, Clark, Wernette, Rine-  
hart, Baker, McIntosh, Johnson, Lu-  
cas and Whitaker.

At a later date mothers of seventh  
grade pupils will give a similar  
luncheon, at which parents of the  
school will be guests. The proceeds  
from this luncheon will also be de-  
voted to necessary cafeteria equip-  
ment.

Miss Sharpe's room, B. Eight 2,  
won the prize of three dollars for the  
room having the largest number of  
mothers present.

Arrangements were made for an  
entertainment at the Palace Grand  
theatre on February 14th.

The membership chairman, Mrs.  
Barton, reported the addition of  
many new names to the roll of the  
Intermediate P.-T. A.

Two vocal solos by Miss Viola Yor-  
ba, "Jean," and "La Paloma" in  
Spanish, were a delightful feature  
of the afternoon.

## ELKS GIVE AID

ABOUT \$3,000 IS SPENT IN  
GIVING CHEER TO NEEDY  
BY GLENDALE LODGE

Consonant with the spirit of true  
charity, and in keeping with the pre-  
cept "let not thy left hand know  
what thy right hand is doing," the  
philanthropic work of the Glendale  
Elks' Lodge goes on so unobtrusively  
that even brother Elks do not  
know specifically what aid is being  
given and to whom.

The work done during the holiday  
season was broad in its scope and of  
great importance. About \$3000  
was spent in aiding needy families,  
bringing comfort and cheer to poor  
little children, and showing true  
friendliness to those without friends  
or means.

A recital of specific cases would  
reveal many interesting "human in-  
terest" stories, no doubt; but it is  
against the principles of the Elks to  
tell them, lest the identity of those  
benefited be inadvertently discov-  
ered, and the lodge's ideal of true  
charity be violated.

It is known, however, that the  
money expended recently during the  
holiday season for the relief of the  
poor amounted to \$3000, which gives  
a little idea of the great amount of  
relief work that was done by Glen-  
dale lodge No. 1289.

## CHOSEN TREASURER

C. C. COOPER IS SELECTED TO  
AUDIT BILLS AND ASSUME  
CHARGE OF PLEDGES

C. C. Cooper, president of the First  
National bank, was yesterday named  
treasurer of the Citizens' Campaign  
committee that is directing the cam-  
paign for the expansion and re-or-  
ganization of the Glendale Chamber  
of Commerce. Mr. Cooper will auth-  
orize and audit weekly all bills of ex-  
pense in connection with the cam-  
paign and will have charge of the  
funds, pledges, etc., collected in the  
campaign until the Citizens' commit-  
tee is ready to finish its job and is  
ready to turn the new organization  
over to the officers and directors  
chosen in the election to be held  
immediately following the campaign.

## Prayers for Tenant

Prayers for the "softening of our  
extortionate landlord's heart" were  
offered up the other day at the Epis-  
copal healing mission at Christ  
church cathedral.

The request for the prayers came  
from a woman and it was read aloud  
to about 300 persons who had gath-  
ered for the healing which was under  
the direction of Rev. Rufus D. S.  
Pitney. At the conclusion of the  
reading of the letter, time was al-  
lowed for silent prayer for the wom-  
an with a hard-hearted landlord.

In the letter the woman said her  
rent had been advanced and she was  
about to be evicted because she could  
not afford the advance. "Pray that  
my landlord's heart may be soften-  
ed," she wrote.

**CENSUS RECORDS DESTROYED**  
WASHINGTON, Jan. 11—Census  
records, some of them dating back to  
the first census taken in the United  
States in 1790 were destroyed by  
fire late yesterday afternoon at the  
Department of Commerce. Officials  
say it will be days before the full loss  
can be ascertained.

Adam probably tried to convince  
Eve that she was a bit too lavish in  
trimmings for her fig-leaf gown.

## BIBLE SCHOOL

INCREASE IN ATTENDANCE AT  
CENTRAL CHRISTIAN;  
TALK BY PASTOR

Central Christian Bible school had  
a larger attendance Sunday than on  
the previous first day of the week,  
and seventy-five larger than on the  
second Sunday in January, 1920.  
The session was interesting and pro-  
fitable.

The morning sermon subject was  
"Difficulties and Burden Bearing in  
the New Church." It related to the  
setting apart of the seven deacons to  
look after the wants of the neglected  
widows and children of the early  
church and from the simple New Tes-  
tament narrative the speaker drew  
lessons for the congregations of to-  
day—how they should look out for  
the weaker members and how every  
member should be at some kind of  
work.

In the evening the topic was  
"Preaching to the Treasurer of  
State," the incident of Philip bring-  
ing conversion to the Ethiopian  
eunuch.

### Lays Stress on Fact

The pastor stressed the fact that  
the Lord called Philip away from a  
very successful meeting in Samaria  
to send him far out in the desert to  
preach to one man, drawing the les-  
son that His purpose must have been  
to use this eunuch in founding the  
great church that afterward existed  
in Northern Africa, therefore Philip  
did not murmur at this seemingly  
strange call, but went at once in  
obedience to the Lord's command. So  
one in this age of the world should  
never question God's commands, for  
there is a mighty purpose in His  
every act.

Beautiful anthems were sung by  
the choir at both services.

## Bankruptcy of Nations

The aftermath of the world war  
finds nearly all nations of Europe in  
a deplorable condition, financially  
and morally. The expenditure of  
men and money has almost ruined  
the nations of continental Europe,  
and economic disaster is well-nigh  
complete.

France is making a brave effort to  
meet her obligations in the payment  
of interest, but the debt is so great  
that it is doubtful if an indefinite  
moratorium, or suspension of pay-  
ments on the national debt, can be  
avoided. The German government  
declares that the nation is bankrupt.

Great Britain, with her vast re-  
sources, finds herself financially hand-  
icapped by the shrinkage in the  
value of the pound sterling, and the  
people are taxed practically to the  
limit. Italy is hanging on more with  
hope than with confidence that finan-  
cial disaster may be averted.

Not only did the nations of Europe  
contract immense debts to carry on  
the war, but great amounts of cur-  
rency, without the backing of gold,  
were issued to meet domestic obliga-  
tions. This currency has depreciated  
so much that the people themselves  
have little confidence in it, and it is  
practically worthless in transactions  
with other nations.

Production and markets constitute  
the salvation of Europe. Cheap cur-  
rency must be retired from circula-  
tion by the millions, and the peoples  
must show by their productive indus-  
try that their credit is worthy of con-  
fidence.

# OPENING AND RECEPTION Wednesday, Jan. 12th HOFFMAN'S MILLINERY

120 E. Broadway, corner Maryland

This new store will hold a formal recep-  
tion all day tomorrow, when we will be de-  
lighted to meet the people of Glendale and  
vicinity. Come and get acquainted with  
us and inspect our store and stock. You  
will not be solicited to buy.

Mr. Paul Hoffman, owner of this store,  
has had two stores in Los Angeles for the  
past six years, but has been living in Glen-  
dale for the past three years. He aims to  
make the Glendale store as attractive to  
Glendale women as the L. A. stores are to  
the women of that city. Styles, quality  
and prices will be equal to those in the city.  
Our Glendale prices will be made as at-  
tractive as the Los Angeles prices, and  
during the opening a 25 PER CENT RE-  
DUCTION WILL BE GIVEN ON ALL  
SALES.

We shall not only carry a full line of la-  
dies', misses' and children's hats, but shall  
make hats to order and remodel and re-  
pair. A complete line of millinery sup-  
plies will also be carried.

Mrs. McCanne, who has been our lead-  
ing designer for the last year, and who  
prior to that was connected with one  
of the leading St. Louis millinery es-  
tablishments, will become connected  
with the Glendale store.

Some folk may be too modest for  
their own good, but a lot of others  
are sufficiently different to strike an  
average.

It costs the United States \$1,651,-  
191 to talk peace at Versailles, but  
it will be hard to estimate the cost  
of getting it.

## ALL FOR FUND

**GLENDALE THEATRE TO GIVE  
MATINEE GROSS PROCEEDS  
FOR BENEFIT FLOAT**

(Continued from Page 1)

noon of the 20th. Everyone who has  
read about this great instrument, an  
organ finer than any in Los Angeles,  
barring none, is on the qui vive to  
hear it. Mme. Maud Moore Clement  
is on this program for selected organ  
features, besides playing for the pic-  
tures.

Mr. Howe has arranged for a special  
program for the afternoon: Bes-  
sie Barriscale in "The Woman Mich-  
ael Married;" the latest Pathe News;  
a Century comedy, "A Blue Ribbon  
Mut;" special organ features by  
Madame Maud Moore Clement.

In devising this plan to help pay  
the float expenses, Mr. Howe, the  
committee feels, gives practical  
demonstration of his generous  
public spirit and his genuine in-  
terest in Glendale. Other residents  
of the city will undoubtedly prove  
that they have an equal pride in  
Glendale by seeing that the tickets  
for this matinee are all taken, the  
committee believes.

#### Committees Are Named

At the meeting of the float com-  
mittee last night, following the ac-  
ceptance of Mr. Howe's offer, Chair-  
man Kitterman named Miss Eva  
Daniels and L. T. Rowley as a com-  
mittee to arrange for the placing  
and sale of the tickets for the "float"  
matinee on January 20. They will  
at once make the necessary arrange-  
ments.

The sale of the tickets is expected  
to net about \$300. The deficit in  
the float fund, according to the fi-  
nancial statement made by Chairman  
Kitterman last night, is about \$450.  
Therefore, even with Mr. Howe's of-  
fer, and the assurance all of the  
tickets will be sold, there will remain  
\$150 more to be raised.

Some of those who subscribed to  
the original fund are doubling their  
subscriptions. Since Glendale won  
first prize, other citizens are sending  
checks to this office to be credited  
to the fund. The committee feels  
certain there are many who are will-  
ing to give, but seem to be waiting  
for someone to call upon them per-  
sonally. So Chairman Kitterman  
last night named J. G. Huntley, W. B.  
Kelly and Mrs. Mabel L. Tight as a  
committee to interview a number  
who should give but have failed thus  
far.

The committee decided that a com-  
plete list of subscribers to the fund  
should be printed in The Evening  
News, together with a list of those  
who donated materials for the float's  
construction.

#### Peking's Fifth Avenue

The first strikingly surprising cus-  
tom among the citizens of Peking is  
that the women wear skirts. To a  
traveler fresh from America this  
would seem as it should be, but to  
one resident in the land of trousered  
women it appears almost immodest.

They not only wear skirts, they  
further approximate western usage  
by painting their faces. Broadway  
is nature itself in comparison, for  
in Peking there are no light artistic  
touches, but gold cheek circles of red  
upon frankly whitened faces—cos-  
metics unabashed.

These are the Manchu women. The  
Manchu men, descendants of the roving  
Tartars, go futilely about this  
spacious city of their fathers balanc-  
ing trick birds upon their wrists,  
for, now that the empire is no more,  
their only occupation, that of ruling  
it, is gone, and the conquered Chi-  
nese, immemorial city dwellers, are  
masters of the capital. It is a sig-  
nificant illustration of the age-old  
ability of the Chinese to absorb and  
ennervate their conquerors.

**"SEEN HIM WHEN HE DONE IT"**

Abernathy, Santa Ana school princi-  
pal, is said to have told his classes:  
"I seen him when he done it." Any-  
way, he is without a job today, hav-  
ing been dismissed by the trustees on  
secret charges.

## PROPOSES PLAN

**CITY MANAGER REPORTS UPON  
SEWER QUESTION; PROPOSES  
COMMITTEE ACTION**

(Continued from Page 1)

the meeting is favorable call a bond  
election. If favorable action is tak-  
en, the firm of Olmsted & Gillette is  
to receive 6 per cent of all money ex-  
pended on the system.

#### Business Section System

It is proposed that so far as the  
business district sewage disposal  
plan is concerned that a separate  
contract be made with the engineer-  
ing firm. The board has the report  
under consideration.

The city manager states that in re-  
gard to sewage disposal for Verdugo  
canyon petitions are being circulated  
which will be presented to the board,  
probably at the meeting Thursday  
night.

The petitions will request that a  
municipal improvement district be  
formed for the purpose of voting  
bonds covering the cost of construct-  
ing a sewer system for that district.

club in Los Angeles, given to the ed-

didate for congress at the special  
election to be held February 15.

## COMPLETE DRAFT

**FINAL WORK ON CHARTER TO  
BE SUBMITTED TONIGHT  
TO FREEHOLDERS**

Final draft of the proposed city  
charter will be submitted to the  
board of freeholders by the drafting  
committee at a meeting to be held  
in the city hall tonight at 7 o'clock  
and, according to present indications,  
the document will be adopted and,  
later, filed with the city clerk, to be  
given to the board of trustees to call  
a special election.

At the last meeting of the board  
of freeholders a number of changes  
were made in the submitted draft  
and, it is presumed, no other changes  
will be made tonight and the final  
draft offered to the board for its ac-  
ceptance. The charter provides for  
the managerial form of government,  
the manager to be chosen by the city  
council.

#### Digging Into Words

If you just sit and look at one  
printed word for a while while it will  
seem to jump at you and the real pe-  
culiarity of its pronunciation, its  
meaning and its fitness will be im-  
pressed on your mind as never be-  
fore. Plate, leather, leaf, dance—  
why were those words chosen to  
mean exactly what they do mean?

Of course, when we were children,  
we used to be told that the word ze-  
bra was invented just so the letter Z  
could be included in our alphabet.  
And many words seem not to have  
much more significance than that.  
But there are whole regiments of  
words, right on this page, in this col-  
umn, or in any reading matter that  
comes before your eye, that have a  
history, a tradition or a custom hid-  
den behind them.

Hobnob with words. They will be-  
come very friendly after a while.  
Let's take that word hobnob, for in-  
stance. Here's its history:

In the spacious days of Queen  
Elizabeth, when all houses were built  
with fireplaces, there was at the cor-  
ner of the hearth a small elevated  
object called the hob, and behind it a  
seat. In winter the beer was placed  
on the hob to warm. If you wanted  
cold beer you got it from the nob, or  
small table standing nearby. Thus  
you might have your choice, hog or  
nob, warm or cold.

From this grew the custom, on  
asking one's companion to partake  
of beverages now forbidden, to say:  
"Will you hob or nob with me?" In  
other words, do you prefer warm  
beer or cold, white wine or red? And  
so convivial spirits, who so often  
asked the question, came to be known  
as hobnobbers, and if you cultivated  
a man's acquaintance, you were said  
to hobnob with him. What a lot be-  
hind such a little word!

Take a word occasionally and dig  
into it. It is a goodly game, and  
you'll lose nothing by the knowledge  
you acquire.

#### PRISON DE LUXE

The new cylindrical state prison at  
Statesville, Ill., is the first of its  
kind in the world. A slight curve in  
the skylight figured by a professor  
of astronomy at the University of  
Chicago gives every one of the 248  
cells that do not get sunlight direct  
ninety minutes of sunlight on every  
bright day. Every cell has an indi-  
vidual washbowl, with hot and cold  
water. In the center of the prison is  
a tower, from which the guards can  
see the movements of all the prison-  
ers. The prison is surrounded with  
a circular concrete wall thirty-three  
and a half feet high, and at night the  
outside of the prison is lighted with  
brilliant electric lights.

## BRIDGE LUNCHEON

**MRS. G. O. PIERCY IS HOSTESS  
IN HONOR OF HER SISTER,  
MRS. J. P. PRICE**

Mrs. G. O. Piercy, 509 West Pat-  
terson avenue, was hostess today at  
a very pretty auction bridge lunch-  
eon in honor of her sister, Mrs. J. P.  
Price, of Iowa.

Mauve and green was the color  
scheme of the daintily-appointed  
luncheon table, where covers were  
laid for eight.

Out-of-town guests were Mrs.  
Clara Cockrell and Mrs. Swires, of  
Alhambra, and Mrs. Hodges and Mrs.  
H. S. Trusecotte, of Pasadena.

The luncheon was served at 1  
o'clock, the game occupying the later  
afternoon hours.

#### Keeping Well Necessary

Man was made to live outdoors.  
Nature did not invent baseburners,  
steam-heated apartment houses and  
factory buildings. Man designed  
those things, and man must make  
the best of them. But let's not over-  
look the necessity of getting as much  
good, clean, wholesome fresh air in  
our systems as we can.

The diseases most common from  
unwholesome air are influenza, pneu-  
monia, bronchitis, diphtheria and tu-  
berculosis. And colds. Colds are  
the most prevalent ailment and the  
most easily avoided. It isn't the cold  
wintry air that gives you a cold, it's  
your clumsy efforts to dodge it, the  
doctors say. Those other diseases  
usually grow out of colds. It is be-  
cause we allow the germs to be in-  
troduced into our noses, mouths,  
throats and lungs, and then don't get  
enough good air to kill them.

Employees of the United States pen-  
sion bureau in Washington lost 18-  
736 working days a year through ill-  
ness. A ventilating system was put  
in the building, and the days lost  
were cut down to 10,114 a year.  
Five hundred employees of a New  
York factory did the work it had  
taken 600 to perform after fresh air  
was introduced as a factor in effi-  
ciency.

Maybe those figures don't mean  
much to you. What does mean a  
great deal, however, is your own  
health, and that of your family.  
Guard it. It is easy. It merely  
means that you should sleep with a  
window open every night—even the  
coldest nights. You should have  
some air circulating in the room  
wherever you are, and as soon as  
you go outdoors you should not  
hunch down into your coat or furs,  
but throw up your head, take a deep  
breath of the crisp, fresh air, and  
put disease to flight.

#### VEGETABLE LEATHER IN JAPAN

A very handy vegetable growth is  
to be found in Japan, furnishing a  
sort of vegetable leather. It is a  
pretty shrub called the "mitsumata,"  
and its inner bark, after going  
through certain processes, is convert-  
ed into a substance as tough as  
French kid, so translucent that one  
can almost see through it, and as  
pliable and soft as calfskin.

## ANOTHER SUPPLY

**STORY OF FLOAT FURNISHED  
FREE IN FORM READY TO  
BE MAILED EAST**

The Evening News' story of Glen-  
dale's prize-winning float is now in  
its third edition—and the demand  
may send it to a fourth.

When the story appeared in The  
Evening News the Monday following  
the parade, all the papers were soon  
sold. Demand for the story contin-  
ued. This paper printed the story  
on a small sheet suitable for mailing  
to eastern friends and announced the  
fact. The supply went quickly.

Now another supply of the story  
has been printed and will be given  
free—as long as it lasts. Many peo-  
ple declare the story takes the place  
of a letter to eastern friends.

## NEW BOULEVARD

PAVING OF SHORT ROUTE TO  
GLENDALE TO BE FINISHED  
LAST OF THIS WEEK

Paving of the new boulevard be-  
tween Glendale and Los Angeles by  
the way of Silver Lake and Ivanhoe  
has now reached the stage where, it  
is expected, the last gap will be com-  
pleted the last of this week, accord-  
ing to information given The Even-  
ing News.

The new road runs in almost a di-  
rect line from the business section of  
Los Angeles to this city and shortens  
the distance over the existing routes  
by almost one and a half miles.

When completed this road is ex-  
pected to relieve the congestion over  
the present roads to San Fernando  
valley points. The new road has the  
advantage of not only being much  
shorter than the San Fernando road  
or the Los Feliz road to Glendale and  
Burbank, but also has low grades  
and a smooth, concrete surface.

The road is now paved as far as  
the river at Ivanhoe and is passable  
for automobiles. Coming from Los  
Angeles to Glendale, to reach this  
highway one drives out Figueroa  
street to Second street. Follow Sec-  
ond street to Lake Shore avenue,  
Glendale avenue and Alessandro  
street where a turn to the left is  
made on Ivanhoe avenue, which runs  
directly through the hills to Ivanhoe,  
where the river is crossed on the  
Ivanhoe bridge at the south end of  
Brand boulevard.

## WOMEN SUPPORT

THREE MEASURES TO OBTAIN  
FULL AID AT LEGISLATIVE  
SESSION, IS CLAIMED

According to information sent to  
The Evening News from Sacramento,  
women of the state will fight for  
three measures at the present ses-  
sion of the legislature.

They are asking passage of a new  
community property law; of a law to  
protect boys under the age of 18,  
morally; and of a measure giving  
state aid to orphans and half orphans  
16 years of age instead of 15.

Such is the program outlined by  
the Women's Legislative Council of  
California, according to Mrs. A. J.  
Lawton, president, who is in Sacra-  
mento to lobby for the bills. The  
council represents 500 women's  
clubs, 600 Parent-Teachers' associa-  
tions and 300 W. C. T. U. organiza-  
tions in the state.

The new community property bill,  
which was introduced in the senate  
Thursday by Senator C. M. Lyon of  
Los Angeles, is weaker in its provi-  
sions than the one defeated at the  
November election. It provides that  
on the death of either husband or  
wife, one-half the community prop-  
erty belongs to the surviving spouse;  
the other half is subject to testa-  
mentary disposition of the decedent  
and in the absence thereof, goes to  
the surviving spouse.

It allows the husband the same  
power to control the community  
property that he possessed during  
the wife's lifetime although it is  
held by another, and it does not ex-  
empt the wife's estate from fees.

Drawn by Bar Association  
The bill introduced was drawn by  
a committee from the state bar as-  
sociation, appointed for the purpose,  
according to Mrs. Lawton. The com-  
mittee was composed of Perry Evans,  
M. C., A. H. Ashley, A. Haines and I.  
F. Treadwell.

Mrs. Lawton said she believed that  
the new bill has eliminated the fea-  
tures of the bill beaten in November,  
which were said to "hurt business."  
On the other hand, however, Sen. W.  
J. Carr, who made a strong fight for  
the defeated bill, will not support the  
new measure because, he claims, it is  
too weak. Assemblyman Esto  
Broughton is opposed to it for the  
same reason.

The bill for moral protection for  
boys has not yet been introduced or  
drawn. According to Mrs. Lawton,  
it will provide severe penalties for  
women over 21 having illicit rela-  
tions with boys under 18. Need of  
the bill is especially pressing in se-  
port cities of California, it was stat-  
ed. A plan for checking up on im-  
morality through cases of social dis-  
eases treated by physicians also is  
planned.

The bill raising the age at which  
state aid for orphans is stopped is  
necessary since the law requiring a  
child to go to school until he is 16,  
was passed, the women believe. At  
present state aid stops at 15, while  
the child is required to attend school  
for another year.

Chosen by Majority of Clubs  
The three measures for which the  
women will fight were chosen by a  
majority of all the clubs of the state,  
as the three most important mea-  
sures to be put through at the present  
session.

A bill proposing a minimum salary  
of \$1,200 a year for all teachers was  
dropped when protests were received  
from a large number of teachers al-  
ready receiving more than that  
amount and when Amendment No.  
14 was passed in November.

An intensive campaign is to be car-  
ried on by all the clubs in the state  
during the month of February, when  
the legislators are at home, accord-  
ing to Mrs. Lawton. The women are  
not going to the women of the legis-  
lature for help with their measures.  
None of the three assemblywomen  
have so far endorsed the program of  
the Women's Legislative Council.  
The assemblywomen apparently pre-  
fer to consider themselves elected to  
represent their districts, it was point-  
ed out, and not in any sense to re-  
present the women of the state.

And the club women are pinning  
their faith on the men legislators for  
enactment of their bills.

### Fuel From Pineapples

Manufacture of motor fuel from  
pineapple waste on the island of  
Oahu was begun recently. A new  
plant is now in operation, all preli-  
minary arrangements having been com-  
pleted and requirements complied  
with. These arrangements include  
the use of a formula adopted and the  
filing of a bond with the government  
in the sum of \$300,000, providing  
for the manufacture of alcohol for  
non-beverage purposes.

Manufacture will be on a large  
scale. There are nine tanks in use,  
each capable of containing 4000 gal-  
lons of pineapple waste. For more  
than two years molasses has been  
manufactured into motor fuel at  
Pala Maui. During the war it was  
shown that the manufacture of mol-  
asses into motor fuel was more pro-  
fitable than burning it for furnace  
fuel, manufacturing it into potash or  
selling it in the crude state in the  
mainland market.

## RE-DISTRICTING

CITY AND COUNTY TO HAVE  
FOUR CONGRESSMEN WHEN  
PLANS CARRIED OUT

It is possible that the city of Glen-  
dale, under a re-districting bill for  
congressional purposes, will be of  
more importance in the election of a  
congressman.

The suggestion is being made that,  
since four congressmen, instead of  
two, are to be allowed Los Angeles  
county and city, that one come from  
a district made up of Pasadena and  
the citrus section, one from San Fer-  
nando valley and, perhaps, a portion  
of the city of Los Angeles and the  
fourth from the harbor area.

Los Angeles city and county have  
grown to such an extent that they  
are entitled to four representatives  
in congress and, in re-districting the  
territory, the suggestion is being  
made that the districts be made as  
outlined.

### Football Casualties

Casualty lists of the football ses-  
sion contain the names of eleven  
dead. These figures as usual will  
provoke an outburst from persons  
not familiar with the game who are  
ever ready to pronounce it brutal and  
fit for legal suppression.

An examination of the fatalities  
shows that the victims were young  
high school boys. To persons famil-  
iar with the need of strict physical  
training that fact means much. On  
well-regulated college teams, men  
who "break" training or refuse to  
abide by strict rules or regime are  
banished from the squad not only  
because of discipline but because of  
the risk such players run if not in  
fit condition.

As a consequence of these restric-  
tions it is rare that college men prop-  
erly trained ever meet death on the  
gridiron. There are exceptions, of  
course, but they are unusual. It is  
quite natural on the other hand that  
young boys of high school age, not  
subject to physical training or un-  
der the eye of an expert coach,  
should expose themselves to risks  
that oftentimes result tragically.

Football is a rough game. It calls  
for physical vigor and intelligence.  
It has its hazards, but with proper  
training it is infinitely safer than au-  
tomobile, swimming and so many  
of the aithers sports accepted as nor-  
mal and free from danger.

### MAGIC CARPET UP-TO-DATE

A plan for seeing strange sights  
comes from France, in the announce-  
ment of the Compagnie Latecoere.  
This aerial line will take you from  
Toulouse, at 8:30 a. m., over the  
Pyrenees to Barcelona, Spain, by  
lunch time. Next day you lunch at  
Malaga, then fly across the Mediter-  
ranean to Tangiers. Then you sail  
above the Atlas Mountains to far-  
away Rabat, a green oasis of the Sa-  
hara, or even to Fez, where it is said  
the company has opened the grand  
viceroy's palace as a hotel. These are  
indeed the days of the magic carpet  
and the seven-league boots to those  
who fear not adventure in the air.

The folks who had the idea that  
prohibition would decrease crime did  
not take into account the ingenuity  
of man.

### Crops, Goods, Money

Certainly there is no cause for lev-  
ity in the estimate of the department  
of agriculture that 1920 crops are  
worth five billions of dollars less  
than 1919. But if we will look be-  
yond the dollar mark perhaps we  
shall see that it is no cause for pro-  
found discouragement, either.

The crop was larger than the 1919  
crop, except, of course, in wheat. But  
altogether there were more tons and  
bushels of the fruit of the soil pro-  
duced. The trouble is, the crop now  
sells for less.

But so does everything else. Man-  
ufactured goods are undergoing a  
tremendous decline, perhaps another  
five billions. There are still goods  
enough for our consumption and our  
foreign trade. There is also enough  
of foodstuffs. There has been a fall  
of 10 billions in dollar marks, which  
no one can either eat or wear. The  
country has been only apparently im-  
poverished, not actually.

The capital invested in farming and  
the other businesses of the country  
has suffered, of course. That means  
just this: that there are fewer dollar  
marks gained, not less wealth. It  
means that the 1921 dollar will be  
worth more than 36 cents in terms  
of pre-war currency, its 1920 value.  
There will not be a panic, economists  
say. A dollar will buy more than  
formerly. That always benefits the  
consumer, and hits the producer.  
But in the long run it will not mean  
a drastic change in values. The  
financial ship rocked too far to one  
side in 1920. It's careening the other  
way now. Pretty soon 'twill right  
itself.

"A wife does not have to work,"  
is the dictum of a New York judge.  
That will be news to a lot of wives.

## Hamilton Forces Invade Long Beach

John J. Hamilton, legally nominated Republican candidate for congress at the election five weeks from today, opened his campaign headquarters at Hotel Kennebec today, announcing the fact through his executive committee in the Long Beach Press as follows, under the caption of his slogan, "Keep America Dry," with the appeal, "Elect John J. Hamilton, Republican Nominee for Congress":

To the Loyal and Liberty-Loving Men and Women of Long Beach:

Following the example of President-elect Harding, who is emulating Abraham Lincoln by choosing his cabinet from among the greatest statesmen of the land, we the undersigned members of the executive committee of the newly organized Lincoln Republicans of Los Angeles County, determined that the great Republican party shall continue to give our beloved country "government of the people, by the people, for the people," to the end that such government "shall not perish from the earth," earnestly appeal to you to inquire most diligently into the serious party situation which has resulted from the unlawful and apparently selfish and unscrupulous conduct of six well-known citizens of Long Beach in relation to the so-called conference held at Pasadena on the 17th day of December, 1920.

The Republican party has just been returned to power at the White House and in both houses of Congress. The nation is not only facing a traitorous conspiracy to nullify its liquor laws, but is threatened with acute business depression, involving extensive unemployment and heavy losses and suffering to workingmen, farmers, merchants, manufacturers, mining and shipping interests, professional men and women and the people generally. Europe is in the throes of famine, pestilence, national bankruptcy and the menace of war and revolution. Our nation is confronted with the heaviest tasks ever committed to the statesman. It would be a calamity to all the people, of all parties, if the Republican party should not rise to the highest level of patriotic service. We maintain that only by acting on the principles of Abraham Lincoln can this be accomplished.

The ends which the good men and women of the nation desire can be attained only by holding citizenship—our highest office—up to the standards set by Abraham Lincoln when Republicanism was born.

If the Republican party, at the very threshold of its new lease of power, in filling one of the first vacancies in the National House of Representatives, shall practise the corruption, self-seeking and autocracy which have become infamous under the name of Tammany Hall, in New York, but are not unknown in various cities of the country, polluting the very sources of governmental power in a republic, and at such a crisis as this, the disaster to our nation and to humanity will be beyond calculation.

It is not necessary to go into details regarding the Pasadena conference. This has been done in part, though not fully, by two prominent editors who were delegates to the conference. Suffice it to say that the conference was called and held in violation of the Constitution and Statutes of California; its conduct was exactly on the lines of caucuses and conventions controlled by the late Walter Parker in the days all true Californians would be glad to forget; and the continuance of practices there boldly indulged in even for this year, and especially with the popular endorsement of the election of its nominee, would start the new Republican administration with a stain upon its now clean escutcheon.

It is not our intention to indulge in personalities. We shall not name the six men who, perhaps with good intentions, have done this thing. They are Long Beach men. They are your neighbors. You know them and like them. You can readily name exactly the six men we refer to. It will be unpleasant to be obliged, as good citizens, to save the good name of Long Beach, the reputation of the Republican party and the cause of good government in our county, state and nation by quietly organizing to defeat them.

But you will do it. If your citizenship is an office—a high office—the highest of offices (because you appoint governors, congressmen, senators and presidents) you will do your duty even if it hurts, and till it hurts.

Though every city, town, village and the whole countryside of Los Angeles County has suffered this humiliation and good government is menaced in all of them, the fight of the people must be made in Long Beach, for only here can the young viper of Tammany machine politics be crushed before it is warm enough to strike. If a Tammany is firmly established here, it will dominate your city, dictate your charter, name your masters (they will not be servants), select your member of the Board of Supervisors and ruthlessly strike down all candidates for local, state and national offices who will not bow the knee to the Long Beach Tammany.

Do you say, "We know these six men. They are boosters for Long Beach." They are friends of its harbor, good successful business men, warm-hearted neighbors, incapable of dishonorable conduct? We tell you that Tammany Hall is, to a large extent, manned by men of that type. Their private ideals are often high. It is their standards of public conduct and character that are low.

The fight need not be angry or bitter, but it must be determined. It must not be cowardly or two-faced. You have a right to inquire into the Pasadena conference, and, as true American citizens, to act upon the conclusions you cannot avoid reaching.

You must not be divided. The duty of the hour is to unite and elect a dry Republican. It is the only way you can make your verdict mean anything. Another success for Mr. Randall would not impress your indignation upon the memories of these men, the six and those they rule. Mr. Randall has done well in his day, but he has been discarded at the polls and, with all due respect, should not be called back. The district is entitled to be represented at Washington by a Republican. One of the three nominees is a man whose dry record antedates Mr. Randall's; a man who, as member and chairman of the County Board of Supervisors, proved one of the best friends Long Beach ever had in the Hall of Records; a man who reorganized the county government, put in the budget system, reduced taxes from 62.5 cents on the \$100 to 50 cents (they have since been raised to 74 cents) and fought for Long Beach through the long, hard fight for flood control, of which he was the leader.

We have engaged modest headquarters at Hotel Kennebec and have invited our candidate—he is also your candidate—to lead the Lincoln Republican movement here, where he can meet and confer with men and women of all parties who love Republicanism, revere the name of Abraham Lincoln, and are rightfully resolved that Lincoln Republicanism shall be the enduring basis of our nation's new development. Mr. Hamilton will be glad to talk with you in person or by phone, and will answer your inquiries and suggestions submitted by letter, postal or otherwise. He will, upon invitation, address your women's clubs and other civic bodies and you will find it worth your while to make his acquaintance. Mr. Hamilton will for the present be here on Mondays, Wednesdays, Thursdays and Saturdays, beginning on Wednesday, (tomorrow), January 12.

"Keep America Dry," also keep it clean, decent and democratic.

Respectfully submitted,  
W. C. PETCHNER,  
Chairman Executive Committee.  
WM. DUFFIELD,  
E. W. BROOKS,  
A. B. SHAW,  
CHARLES ALEXANDER,  
Secretary.

## ELKS AID FUND

LOCAL LODGE DONATES \$50 TO HELP CLEAR DEFICIT IN CITY FLOAT FUND

Glendale lodge of Elks in session last night voted to give the sum of \$50 to the fund subscribed to finance the city's float in the Tournament of Roses parade in Pasadena and in which there is a deficit of about \$450.

Besides making the subscription, members of the Elks' lodge drove the auto furnishing the motive power for the float and made up the team to walk in front of it and do the guiding.

Sixty-three candidates were balloted upon by the Elks last night. Five life memberships were applied for.

After the lodge session moving pictures of the picnic and play staged last Sunday were shown.

It is planned to give the ladies an opportunity to see this picture at the next dance, which will be given on January 21.

## Will Farmers Quit?

Some sensitive souls appear to be somewhat perturbed by the fear that the farmers of the United States, discouraged by the drop in prices, will give up the job of feeding the American people and a lot of other folks.

Well, the farmer has been doing considerable complaining, and it must be admitted that he has the best reasons he ever had for complaint, but it is a reflection on his intelligence to say that he will quit just because things have gone a little against him.

One thing seems certain—the prices of farm implements, fertilizer and such other things as the farmers buy must be reduced in price to justify the farmer to continue in agriculture, failing which he will have the best reason imaginable for quitting the job.

The cost of production must be reduced, and this must be done by the interests which look to the farmers for sales—the manufacturers of agricultural implements, producers of fertilizers and other farming essentials.

The American farmer is not a quitter, although a few of his number drift into the towns in the hope of bettering themselves, just as the city man goes from one town to another for the same purpose. The farmer has just as much grit as the manufacturer or merchant, and he will see this thing through to better days.

Let congress give the farmer some help in finding a foreign market for the surplus grain, and it will not be long until prices will be equalized, although it may mean a slight advance in the prices of wheat and corn in this country. With the farmer prosperous, the condition of the nation generally will be improved.

## EXTREMES OF LIFE

DR. C. M. CRIST SPEAKS UPON TWO TEXTS AT SERVICES SUNDAY EVENING

Dr. C. M. Crist, pastor of the First Methodist church, spoke Sunday evening on the theme, "The Extremes of Life." Two texts were chosen as a basis of his remarks: Job 10:1, "My soul is weary of my life;" Phil. 1:21, "For me to live is Christ." Dr. Crist said in part:

"The words of our first text give us the wail of the lost soul; while in the New Testament passage we have the shout of victory given by the one who has found the Savior. These texts present to us the extremes of human experience. For the most part life is lived somewhere between the two but there is always a fine demarcation running down through the world that separates our humanity in the two classes, the saved and the unsaved.

"There is," said Dr. Crist, "great rejoicing on our part with those who have found the way, but there is an inexpressible sadness because of the great procession of our humanity that is without God and without hope in the world. In the midst of a gloriously created universe there are tens of thousands for whom all the attractive charm of life has died out. Myriads are saying today, 'My soul is weary of my life.' There is an alarming increase of those who wickedly take their own lives in the vain hope of ending all.

## World's Deepest Misery

"What is the world's deepest misery? Is it poverty? Affliction? No. Is it sickness or any incurable physical affliction? No. Is it the loss of loved ones as great as is that affliction? No. The world's deepest misery is the misery of a guilty soul. One who is lost in spite of God's mercy.

"There is," said the preacher, "a way for man to find relief from the burden of sin. There is a way to separate man from the cause of his wretchedness. That is a striking Old Testament passage that declares that God will cast our sins in the depths of the sea. Just what this may have meant to other ages we cannot say, but to our day it has profound significance. We are told that the bottom of the sea is charted and that its depth is known at one place to be six miles. It surely means then to us that our sins are buried so deep that we will not have to meet them again. As far as the east is from the west so far hath he removed our transgressions from us."

## Marvelous Conception

"This is a marvelous conception in our second text, 'For me to live is Christ.' Talk about a limited life. Why the Christian life is so big and so full of purpose that Paul said that it was Christ. No word fuller of meaning than this. He is all in all. 'For me to live is Christ.'

"The pulpit call tonight is to leave the old life of sin and its consequent despair and to accept the new life in Christ Jesus our Lord, with all of its glorious present and its still more glorious future."

## No Change in Form

With all the improvements that the modern army rifle represents, no change has been made in the general form and operation of the trigger since firearms were first used. There is now under test in certain United States arsenals, however, a new type of trigger action that, while similar in appearance to the usual form, actually reverses the familiar firing operation, says Popular Mechanics magazine. To fire, the new trigger, which has considerable fore-and-aft movement, is pulled clear back, and then allowed to move forward again. At about the half-way point of its forward travel the rifle is discharged.

## Curb Reckless Drivers

The prosecuting attorney of a county in Ohio has filed charges of assault and battery against a driver of an automobile whose machine struck and injured two persons. The claim is made that the driver did not take ordinary care to avoid the accident.

The charge of assault and battery, resulting from hitting a person with an automobile instead of a club, can, it is claimed by the prosecutor, be sustained under a recent decision of the supreme court of the state. The penalty in Ohio for carelessness in driving an automobile is a fine of \$25, but under the charge of assault and battery the driver may be fined and sent to the workhouse for six months.

A reckless driver might not be cured by fining him the maximum for carelessness, but it would be quite another thing if he should be sent to the workhouse. The large number of pedestrians and drivers of automobiles injured by reckless automobilists makes it desirable that something should be done to curb the carelessness that is shown by many persons in the use of high-powered vehicles.

If the Ohio prosecutor is able to sustain his charges in court, he should be able to create a wholesome regard for the practice of care in the operation of automobiles. Drivers who are careful are in just as much danger as pedestrians, and it is to their interest that the careless ones be restrained.

Mothers may soon be encouraging their young daughters to be good by telling them they may be president some day.
